

Aspen Ridge wins two awards for 77 Charles!

Ontario Home Builders' Association

2010 Awards of Distinction,

Aspen Ridge Homes took home two honours (*most outstanding high-rise building* and *most outstanding high-rise condo suite*) for 77 Charles West (77charles.ca).

The criteria for "most outstanding building" included its concept, overall exterior and interior appeal, the creative use of materials and common spaces and functionality.

Likewise, the suite award was judged on overall appeal, the use of building forms and materials, use of space, functionality, plus originality. Seventy-seven Charles is the creation of HOK's Yann Weymouth, the chief design architect for I.M.

Pei's Grand Louvre Museum in Paris. The exterior of 77 Charles features a fascinating interplay of light and glass. When viewed from Bloor Street, the building resembles a crown at the top of St. Thomas Street.
