About the Speaker

Carol Ann Cole is an author, a professional speaker and the founder of a national fund-raiser. Bringing extensive business experience to the speaking platform, Carol Ann shares details of her 27 year career from typist to one of the first female Vice Presidents in a non-traditional role with Bell Canada.

Carol Ann and her mother Mary were diagnosed with breast cancer within three days of each other. Deciding there was more to life for her than climbing the corporate ladder, Carol Ann walked away from what she affectionately calls her "big job at the Bell." The rest, as they say, is history.

Lessons Learned upside-the-head, Carol Ann's second book (2006), has the potential to help you make positive changes in your life and the lives you touch each day. *Comfort Heart – A Personal Memoir* is Carol Ann's best-selling autobiography (2001).

Carol Ann has received numerous awards and is a Member of the Order of Canada.
